RESPONDENT’S PROFFER ON AWARD OF COMPENSATION

On August 22, 2018, Ryan Bronson (“petitioner”) filed a petition for vaccine injury compensation alleging that he developed Guillain-Barré syndrome (“GBS”), a Table injury, following receipt of an influenza (“flu”) vaccination administered on October 15, 2015. Respondent filed his Rule 4(c) Report conceding entitlement to compensation on July 10, 2019. The Court issued a Ruling on Entitlement on July 12, 2019.

I. Items of Compensation

Based upon the evidence of record, respondent proffers that petitioner should be awarded a total of \$184,865.23, consisting of \$175,000.00 for his past and future pain and suffering and \$9,865.23 for documented past lost wages. This represents all elements of compensation to which petitioner would be entitled under 42 U.S.C. § 300aa-15(a).¹ Petitioner agrees.

¹ Should petitioner die prior to entry of judgment, the parties reserve the right to move the Court for appropriate relief. In particular, respondent would oppose any award for future damages.

II. Form of the Award

The parties recommend that the compensation provided to petitioner should be made through a lump sum payment of \$184,865.23 in the form of a check payable to petitioner.²

Petitioner agrees.
